

2026 Residential Central Air Conditioner (A/C) REBATE PROGRAM

Rules & Requirements

- Anoka Municipal Utility (AMU) residential customers are eligible for rebates when buying a **new** energy efficient central air conditioner to be used where the electricity is supplied by AMU.
- Energy efficiency is determined by the Air-Conditioning, Heating, and Refrigeration Institute (AHRI). The AHRI's Unitary Directory is used to identify product classification, determine efficiency ratings, and confirm matched systems. Non-matched assemblies are not certified by the AHRI and are not eligible for rebate. The AHRI directory may be found on their [website](#) or by calling 315-737-5180.
- AMU reserves the right to conduct random inspections to verify installation of the central air conditioner at the address indicated on the front of this form. If AMU inspects the appliance, the rebate application will not be processed until the inspection has been satisfactorily completed. Inspections may be performed after the rebate payment at AMU's discretion.
- Must purchase both the condensing unit and the coil to receive a rebate.
- Central air conditioners (A/C) must be energy efficient with a SEER2 of 15.0 or higher for rebates.
- Does not need to be ENERGY STAR® .

- If interested in ENERGY STAR® products, visit the [Energy Star website](#) or call 1-888-782-7937.
- Talk to your dealer to find out which brands and models may be eligible for AMU rebates. AMU is not responsible if your dealer provided inaccurate information about the amount and/or conditions of the actual rebate.
- Central air conditioners must be **energy efficient**, having a SEER2 of 15.0 or higher for rebates. Rebates will be issued only for high-efficiency air conditioners units, and it is the responsibility of the customer and contractor to verify current **SEER2 meets the 15.0 minimum standard**.
- The unit must be installed by a registered contractor. AMU does not endorse, certify, or guarantee the work performed by a registered contractor.
- AMU residential customers must apply for rebates within twelve (12) months of the purchase date shown on the sales receipt.
- Limit one rebate per residential customer account. The unit must be installed where electric service is provided by AMU on a retail basis.
- Credit will be applied to the customer's AMU account associated with residence of A/C install.
- AMU Customer signature/electronic signature is required. Customer must be listed on the AMU utility bill matching installation address for which rebate may apply.
- Copy of dated sales receipt/invoice must include the purchase date, installation date, Installation address, Manufacturer, Model Number, Serial Number, AHRI reference number, Size or Capacity and Efficiency (SEER2).
- Failure to complete all rebate application information, or to provide documentation required, will result in a rejection of the application. AMU reserves the right to conduct random inspections to verify installation of the A/C at the address indicated on the front of this form. If AMU inspects the appliance, the rebate application will not be processed until the inspection has been satisfactorily completed. Inspections may be performed after the rebate payment at AMU's discretion.
- Rebate qualifications and amounts are subject to change at any time. AMU conservation rebate programs may be cancelled or changed without notice. AMU customers should check with AMU to determine whether program changes have occurred and if rebate funds are still available.

Rebate Amount

Rebate amount is based on the energy savings. The more efficient the equipment, the more energy savings. The Seasonal Energy Efficiency Ratio (SEER) rating of the central air unit, shown on the AHRI certificate as SEER2, will determine the efficiency of the equipment.

- Rebate amount will be calculated using SEER2 rating and tonnage of the equipment.
- A minimum of 15 SEER2 is required for rebate eligibility.
- For a rebate amount estimate, use our [A/C Rebate Estimate Request Form](#), or [email us](#) with the SEER2 rating and tonnage.

How to Apply

1. The customer understands the Rules & Requirements.
2. Applications **must** be post-marked or submitted to AMU **within 12 months of the receipt date**.
3. Select either the Online Application form, or the Printable Application to mail in for rebate submission.
4. **Applications must be filled out completely and include:**
 - a. **Air-Conditioning, Heating, and Refrigeration Institute (AHRI) certificate/number**
 - b. **Dated Sales Receipt/Invoice (see *How to Apply* step 5)**
 - c. **Complete installation on or before rebate application submission date.**
 - d. **AMU account holder signature**
5. Please include a copy of dated sales receipt/invoice including the Manufacturer, Model Number, Serial Number, Size or Capacity, and Efficiency. Receipt(s) can be uploaded in online application or mailed in with printable application.
6. Only complete applications will be processed. Submit signed application with AHRI certificate, and sales receipt online or by mail to AMU, Attn: Rebates, 2015 First Avenue, Anoka, MN 55303.
7. AMU will issue the rebate in the form of a credit to the customer's AMU account, unless rebate amount is \$100, then in the form of a check made payable to the account holder and mailed based on address of customer account and installation. Please allow six to eight weeks for processing.
