**Who We Serve:**

Our focus at MGW is on the survivor of exploitation/trafficking as Minnesota has been rated by the FBI as the 3rd highest trafficking state in the US.

**Our Program:**

MGW's Enrichment Program supports exploited/trafficking survivors through one-on-one mentorships, tangible resources and care that empowers them to become strong and resilient so they can achieve a life of independence, purpose, hope, and lasting transformation.

**Guiding Principals:**

- Collaborate with Partners to fill gaps
- Manage all resources through strong stewardship
- See and treat all people through the lens of Christ
- Leaning into the Spirit to guide and direct our organization

**Who We Are:**

We are a 501(c)(3) non-profit organization with strong community partners to bridge gaps in needed areas. We accomplish this by cultivating relationships with business owners, non-profits, government agencies, churches, and volunteers as together we assist in restoring individuals back into our communities.

We envision a future where our local Minnesota communities say "enough" with letting exploited/trafficking survivors fall back into the darkness without giving them the support needed.

MGW is grateful for all donations, volunteers and sponsors who play a key role in supporting our mission.
